Education

- **MA in Education & Technology**, University College London, UK 2019 – 2022
- **Postgraduate Diploma in Education**, Syrian Virtual University, Syria 2019 – 2021
- **BS in Computer Engineering**, Damascus University, Syria 2011 – 2016

Experience

- **Senior Education Program Officer, Molham Team** (www.molhamteam.com) 2025 – Present
A Humanitarian organization delivering integrated support to displaced communities, with education as a core driver of recovery and resilience.

- Lead and expand education programs that improve access, quality, and learning outcomes.
- Coordinate schools, partners, donors, and field teams for timely and impactful delivery.
- Strengthen education quality through teacher development, monitoring, innovation, and alignment with global standards.

- **Board Member, Syrian Engineers Association - Damascus** (www.osea.org.sy) 2025 – Present
 - Contributing to strategic planning and development of digital transformation initiatives.
 - Supporting data-driven decision-making through improved collection and analysis systems.
 - Advocating for youth engagement and representation within professional engineering bodies.
 - Participating in change management to improve organizational efficiency.

- **Co-founder and CEO, Daraty** (www.daraty.com) 2014 – Present
A startup project that aims to teach children the basics of electronic circuits via an interactive learning kit
 - Lead the development of the startup's short- and long-term strategy
 - Ensure the product roadmap is in alignment with the startup's vision
 - Pilot the fundraising and manage finances

- **Managing member, Wikilogia** (www.wikilogia.org) 2011 – 2019
A collaboration platform for Syrian students and professionals offering various lectures and hackathons
 - Design educational programs for youth, women, and children
 - Develop scientific content, lecture and train in workshops
 - Coordinate UN agencies initiatives: Wikilogia Hackathon (UNFPA) and Innovation Lab (UNDP)

- **Program Coordinator, Damascus Innovation Lab** (www.innovationlabsy.org) July-Nov 2019
A UNDP-Wikilogia program offers youth-led projects a co-working space, technical and non-technical training, guidance, and equipment to turn their social impact technical ideas into real products or services
 - Coordinate and supervise the day-to-day activities of program staff and participants
 - Monitor program activities and submit program monthly reports to UNDP Syria
 - Lead market assessment and context analysis studies

- **Entrepreneurship Trainer and Mentor, IECD Syria** (www.iecd.org) 2018 – 2019
I worked closely with future entrepreneurs through the BRIDGES program which supports Syrian youth aged 16-24 to develop their startups, small businesses, and initiatives.
 - Co-develop the training material, training exercises, and deliverables
 - Facilitate business training targeting individuals with startup ideas and SMEs
 - Provide continuous feedback on participants' progress

- **Organizer and Trainer, ICTI Entrepreneurship Program** (www.ti-scs.org) 2015 – 2018
The first Syrian tech-startup incubator ICT Incubator provides youth with entrepreneurship boot camps
 - Design multiple business training and startup education programs
 - Train and supervise while advancing in their projects
 - Coordinate logistics and plan events
